**TransColorado Gas Transmission Company; Notice of Application**

October 7, 1998.

Take notice that on October 2, 1998, TransColorado Gas Transmission Company (TransColorado), 12055 West 2nd Place, Lakewood, Colorado 80228 filed in Docket No. CP99-5-000, an application pursuant to Section 7(c) of the Natural Gas Act, for a certificate of public convenience and necessity authorizing it to construct and operate the Greasewood mainline extension on the northern end of the TransColorado system in Rio Blanco, County, Colorado, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

TransColorado proposes to construct and operate the Greasewood Extension, consisting of approximately 5.3 miles of 22-inch diameter pipeline, extending from the northern terminus of the authorized TransColorado Phase II project located at Big Hole to a header facility located at Greasewood. TransColorado states that it was originally intended that the Big Hole interconnection with Questar Pipeline Company's Questar) Main Line No. 68 would be the northern terminus of the system. However, since the original terminus was certificated, additional gas supply sources have developed at a market hub known as Greasewood. The Greasewood Hub is located approximately 5.3 miles northeast of Big Hole. TransColorado states that at the Greasewood Hub, its system can be interconnected with Questar, Northwest Pipeline Company, Colorado Interstate Gas Company, Barrett Resources Corporation, and Wildhorse Energy Partners, LLC.

TransColorado states that virtually all of the proposed route for the extension will be constructed on property managed by the Bureau of Land Management. TransColorado states that the Greasewood Extension is designed to transport up to 156,700 Mcf per day (Mcf/d) and that the extension will be integrated into its interstate pipeline transmission system.

TransColorado states that the header system is designed to receive natural gas from supply sources in the Greasewood vicinity and consists of metering and flow-control equipment and appurtenances. TransColorado also states that pig launching and receiving
